

APPENDIX C. GMP CHECKLIST (ON-SITE VISIT)

The third Microsoft Forms survey is intended for the GMP researcher to fill during the actual on-site visit to the SMF manufacturing site. As described in the methodology it is intentionally concise. The survey aims to capture broad-brush GMP issues with little structure in order to minimize the burden and leave maximum time for the actual physical assessment of the GMP practices at the manufacturing site. The questionnaire has roughly 2 to 4 questions per FSMA GMP section.

General GMP Checklist

3. Equipment and Utensils

3.1. Are equipment and food contact surfaces designed, maintained, and cleaned to prevent contamination and allergen cross contact?

☐ Yes

☐ Other

3.2. Are cold storage units and measurement devices (e.g., thermometers, pH meters) accurate, calibrated, and monitored?

☐ Yes

☐ Other

General GMP Checklist

4. Processes and Utensils

4.1. Are all food operations supervised by trained individuals to ensure sanitation and safety?

☐ Yes

☐ Other

4.2. Are raw materials, work-in-progress, and finished products handled, stored, and labeled to prevent contamination and allergen cross contact?

☐ Yes

☐ Other

4.3. Are testing procedures in place to detect undeclared fillers or product contamination?

☐ Yes

☐ Other

4.4. Are foods requiring temperature, pH or water activity control monitored to prevent microbial growth?

☐ Yes

☐ Other

General GMP Checklist

5. Sanitation and Pest Control

5.1. Are cleaning compounds, sanitizers, and pesticides safe, stored securely, and used to prevent contamination?

☐ Yes

☐ Other

5.2. Is there an effective pest control program, ensuring no contamination from pests or pest-control measures?

☐ Yes

☐ Other

5.3. Are food contact surfaces, equipment, and single-use articles cleaned and stored to prevent contamination?

☐ Yes

☐ Other

General GMP Checklist

6. Warehousing and Distribution

6.1. Are storage and transportation conditions controlled to prevent contamination, allergen/cross contact, and food deterioration?

☐ Yes

☐ Other

6.2. Is stock rotation (first in, first out) documented, and are finished products clearly labeled for allergens?

☐ Yes

☐ Other

6.3. Are temperature-controlled foods checked for temperature abuse upon receipt?

☐ Yes

☐ Other

General GMP Checklist

7. Holding and Distribution of Human Food By-Products for Use as Animal Food

7.1. Are human food by-products for animal feed stored, handled, and transported to prevent contamination?

☐ Yes

☐ N/A

☐ Other

7.2. Are by-product containers and shipping vehicles inspected and accurately labeled?

☐ Yes

☐ N/A

☐ Other

General GMP Checklist

8. Defect Action Levels

8.1. Are quality control operations in place to minimize natural or unavoidable defects?

☐ Yes

☐ Other

8.2. Are there written procedures for handling defective foods, ensuring no mixing with safe products?

☐ Yes

☐ Other

General GMP Checklist

APPENDIX D. POST ASSESSMENT FEEDBACK FORM

The fourth Microsoft Forms survey is intended for SMFs to complete after the initial assessment and any follow-up on-site visit or training provided by the GMP training assistance intervention. The aim of the survey is to gather information on the usefulness of the training and potential ways to streamline the process and improve the experience and outcomes for SMFs.
